BUCCOLAM® (midazolam oromucosal solution) is the only licensed oromucosal midazolam used to treat prolonged, acute, convulsive seizures in infants, toddlers, children and adolescents (from 3 months to <18 years of age).

BUCCOLAM is available as unit-dose, age-specific, colour-coded, pre-filled oral syringes and can be administered by parents/carers where the child has been diagnosed to have epilepsy.

Prescribers are recommended to consult the Summary of Product Characteristics, before prescribing BUCCOLAM, particularly in relation to side effects, precautions and contraindications.

For more information on BUCCOLAM, please refer to the Summary of Product Characteristics, which is available on request from the ViroPharma stand.

Legal Category: POM.
Marketing Authorisation Holder: ViroPharma SPRL, Rue Montayer 47, 1000 Brussels, Belgium.
Adverse events and safety concerns should be reported to ViroPharma Drug Safety via email to eu.medinfo@viropharma.com or via the numbers below:
EU Med Info, toll free: +800 8476 8476, Belgium: +322 792 5129
(Please be aware there may be additional local procedures/requirements for adverse event reporting to country-specific Medicines Authorities.)
INVITATION

Dear friends and colleagues,

We are very pleased to welcome you to the 4th London-Innsbruck Colloquium on Status Epilepticus and Acute Seizures, which will be held in Salzburg from April 4 – 6, 2013. The previous colloquia (London 2007, Innsbruck 2009, and Oxford 2011) were highly successful, and these biannual colloquia have become a popular feature of the international epilepsy calendar.

The meetings have successfully rekindled interest in Status Epilepticus, and have followed in direct lineage the traditions of the Marseilles Colloquium held in 1962 and the two Santa Monica meetings on this topic held in 1980 and 1997. This fourth colloquium will be held in the beautiful surroundings of Salzburg, and will bring together scientists, academics and clinicians in what will be a most innovative and exciting programme.

The conference will focus on current basic and clinical research in status epilepticus, clinical aspects and new therapies – with the aim of stimulating thought and discussion and improving treatment and outcome in this devastating condition. We do hope you will be able to attend and we look forward to personally welcoming you to what should be an instructive, interesting and enjoyable event.

With best wishes

Eugen Trinka and Simon Shorvon

COMMITTEES

Colloquium Chairs
Eugen TRINKA, Salzburg, Austria
Simon SHORVON, London, United Kingdom

Faculty
Aigner Ludwig, Austria
Battaglia Giorgio, Italy
Bauer Gerhard, Austria
Baulac Michel, France
Baumgartner Christoph, Austria
Beniczky Sándor, Denmark

Preliminary Programme
(as of February 2013)

THURSDAY, 4 APRIL 2013

08:30 – 08:45  ILAE Address and opening of the conference
E. Perucca (Italy), E. Trinka (Austria), S. Shorvon (United Kingdom)

08:45 – 09:30  Introduction

08:45 – 09:15  Progress in the last six years
S. Shorvon (United Kingdom), E. Trinka (Austria)
Discussion

09:15 – 09:30  Discussion

09:30 – 12:45  Molecular studies of status epilepticus
Chair: D. Kullmann (United Kingdom), A. Pitkänen (Finland)

09:30 – 09:50  Receptor trafficking hypothesis – revisited
J. Kapur (USA)
Discussion

10:10 – 10:40  Coffee Break

10:40 – 11:00  Antagomirs and microRNA in status epilepticus
D. Henshall (Ireland)
Discussion

11:00 – 11:20  Role of Adenosine in status epilepticus – a potential new target?
D. Boison (USA)
Discussion

11:20 – 11:40  Discussion

12:00 – 13:40  Poster session I and lunch

13:40 – 15:00  Neurophysiology of status epilepticus I
Chair: G. Bauer (Austria), L. Hirsch (USA)

13:40 – 14:00  The neurophysiological types of NCSE – EEG patterns with different phenotypes
P. Kaplan (USA)
FRIDAY, 5 APRIL 2013

08:00 – 10:00
Advances in basic science of status epilepticus
Chair: I. Blümcke (Germany), H. Cross (United Kingdom)

08:00 – 08:20
Neurogenesis and neuronal regeneration in status epilepticus
L. Aigner (Austria)
Discussion

08:20 – 08:40
Gene therapy in status epilepticus
M. Walker (United Kingdom)
Discussion

08:40 – 10:00
Coffee break

11:00 – 13:20
Aetiological aspects of status epilepticus
Chair: N. Bharucha (India), C. Kellinghaus (Germany)

11:00 – 11:20
Autoimmunity, seizures and status epilepticus
J. Dalmau (Spain)
Discussion

11:20 – 11:40
Infectious causes of status epilepticus in Africa – new findings
C. Newton (Kenya)
Discussion

11:40 – 12:20
FIRES and IHHE – delineation of the syndromes
R. Nabbout (France)
Discussion

12:00 – 13:00
Poster session II and lunch

14:00 – 18:00
Treatment of refractory status epilepticus
Chair: I. Leppik (USA), G. Singh (India)

14:00 – 14:20
Multimodal invasive monitoring – what is the evidence it has a place?
R. Helbok (Austria)
Discussion

14:20 – 14:40
The complications of anaesthesia and ITU
E. Wijdicks (USA)
Discussion

14:40 – 15:00
Panel discussion
L. Hirsch (USA), G. Bauer (Austria), S. Beniczky (Denmark), R. Pressler (United Kingdom)

14:00 – 14:20
Non-synaptic transmission
D. Janigro (USA)
Discussion

14:20 – 14:40
Neurogenesis and neuronal regeneration in status epilepticus
L. Aigner (Austria)

14:40 – 15:00
Intrinsic epileptogenicity of dysplastic cortex
G. Battaglia (Italy)
Discussion

15:00 – 15:40
Coffee break

15:40 – 17:00
Neurophysiology of status epilepticus II
Chair: C. Baumgartner (Austria), E. Schmutzhard (Austria)

15:40 – 16:00
Intrinsic epileptogenicity of dysplastic cortex
G. Battaglia (Italy)
Discussion

16:00 – 16:20
Status as a system disturbance: is status due to synchronisation or desynchronisation?
SS. Cash (USA)
Discussion

16:20 – 16:40
Non-synaptic transmission
D. Janigro (USA)
Discussion

16:40 – 17:00
Panel discussion
L. Hirsch (USA), G. Bauer (Austria), S. Beniczky (Denmark), R. Pressler (United Kingdom)

14:00 – 14:20
Panel discussion
L. Hirsch (USA), G. Bauer (Austria), S. Beniczky (Denmark), R. Pressler (United Kingdom)

14:20 – 14:40
Non-synaptic transmission
D. Janigro (USA)
Discussion

14:40 – 15:00
Intrinsic epileptogenicity of dysplastic cortex
G. Battaglia (Italy)
Discussion

15:00 – 15:40
Coffee break

REGISTRATION

To attend the conference, please register online on www.statusepilepticus2013.eu

The final deadline for online, faxed or mailed conference registration forms is March 29, 2013 to allow for administration of these items. After this date, registrations have to be made on site.

Each delegate must fill in a separate form. Please note that registration will be confirmed upon receipt of payment only. Make sure that you follow the instructions for payment of all fees involved. Payments have to be free of any bank charges for the beneficiary.

* Delegates applying for the junior registration fee must bring their passports to the registration desk as proof of their age

Registration includes the following unless otherwise specified:

- admission to scientific sessions and poster presentations
- admission to the industrial exhibition
- printed material for the conference
- conference bag
- coffee breaks, light lunches and welcome reception
**Hotel Reservation**

**Headquarter Hotel - Radisson Blu Hotel**

The organisers have arranged a block of rooms at favourable rates at the SE 2013 Headquarter Hotel - Radisson Blu Hotel. Since the number of rooms available is limited, we strongly recommend an early reservation.

Visit their website at www.radissonblu.com/conferencehotel-salzburg

**SE 2013 special rates:**

- **single room:** € 109.00 per room/night incl. breakfast and all taxes
- **double room:** € 129.00 per room/night incl. breakfast and all taxes

Please arrange your reservation directly with the hotel. To qualify for the reduced rates, indicate „SE 2013“ as a booking reference and send an e-mail to reservations.sal01@grandcityhotels.com

**Other hotels**

If you wish to reserve a different hotel, please contact the Salzburg Tourist Board Booking Service at www.salzburg.info/en/accommodation/online_booking

---

**Terms of payment**

Payment must be made in Euros when registering.

Please do not forget to indicate the delegate’s name and „SE 2013“ for payments by bank transfer. Two modes of payment are possible:

1. **By bank transfer** (arrange bank remittance in €) to:
   - Bank: Raiffeisen Landesbank Tirol AG, Adamgasse, A - 6020 Innsbruck (Austria)
   - Account no.: 800-03.808.888
   - Account name: SE 2013 c/o Congress und Messe Innsbruck GmbH
   - Sort code: 36000
   - IBAN: AT04 36000 80003808888
   - BIC: RZTIAT22

   Please note: all bank charges, i.e. also foreign ones, have to be borne by the participant. Do not forget to instruct your bank to process the remittance „free of all charges for the beneficiary“.

2. **By credit card**
   - Your credit card payment will be processed via a secure site. (provider: mpay24).
   - Upon receipt of the completed registration and remittance of the appropriate fees, delegates will be sent an official confirmation email.

---

**Cancellations and Refunds**

Notification of cancellation must be sent in writing to pco tyrol congress. If cancellation is received by March 4, 2013 payments will be refunded minus bank charges and a handling fee of € 50.- No refunds can be made for cancellations after this date. Please note that due to organisational reasons, all refunds will only be processed after the meeting.
COMMERCIAL EXHIBITION & SPONSORING

The commercial exhibition will be located adjacent to the session halls and the poster area at the Radisson Blu Hotel & Conference Centre. This provides an excellent opportunity for delegates to meet with commercial companies and to find out about the latest advances. Coffee breaks and lunch will take place in the exhibition area as well.

Please contact the exhibition organiser for detailed information on exhibition and sponsorship opportunities:

GENERAL INFORMATION

About Austria

Austria has been a member of the European Union since 1995, the population is some 8 million, the capital city is Vienna (Wien). Politically, Austria is a democratic republic with the prime minister as the head of the government and parliamentary elections every five years. The formal head of state is the president, who has more representative duties than political power. The country is divided into nine federal states; Salzburg is the capital of the same named state (Salzburg). German is the spoken language, but most Austrians speak English, and third languages like French and Italian are very common. Austrians pride themselves with their hospitality, cuisine and traditions.

LOCAL TIME: GMT +1

About Salzburg

Salzburg has acquired international fame as city of Mozart and the Salzburg Festival. But it might also interest you to know that Salzburg is capital to the province of the same name and that it is home to 150,000 inhabitants, making it the fourth largest city in Austria.

Salzburg’s compact layout is one of the city’s most attractive features. Vital transport hubs such as the train station and W. A. Mozart International Airport are all within easy reach, which help to make Salzburg the perfect event destination. Salzburg is known for being the city of Mozart. It sits on either side of the Salzach River and in the Salzburg basin. The city was re-founded as a bishopric on Roman ruins (Iuvavum). Salzburg achieved immense wealth from mining and trading of salt. It became a bishopric residence of architectural splendour during the reigns of Wolf Dietrich and his successors. The city of Salzburg - and especially its historic city centre – is in fact one of the loveliest places in Europe, winning international acclaim in 1997 when it was designated a world heritage site by UNESCO. The Old City with its variety of building styles is a true architectural delight, also a result of the city’s strict preservation laws. A walk through the countless narrow streets (the most famous being the Getreidegasse, Judengasse, Goldgasse, Kaigasse, Linzerengasse and Steingasse) features buildings from the Middle Ages, Romanesque, Baroque and Renaissance periods as well as the elegant classical burghers’ houses dating from the monarchy.
TRAVEL TO SALZBURG

Salzburg Airport can be reached from all venues in the city of Salzburg quickly and easily. Munich Airport is located only 180 kilometres from the city of Salzburg. And also the perfect train and motorway connections ensure a smooth arrival.

By plane

Salzburg’s W. A. Mozart Airport is located only four kilometres from the city centre, a fifteen minute journey by taxi or bus. Used by many international airlines and low-cost carriers, Salzburg is directly accessible from cities such as Berlin, Düsseldorf, Hannover, Hamburg, Cologne/Bonn, Frankfurt, Leipzig-Halle, Amsterdam, Vienna, Paris, London, Manchester, Stockholm, and Zurich. As well as its own airport, Salzburg is also connected to Munich Airport by shuttle bus.

Official Carrier

Austrian Airlines has been nominated official carrier for our Colloquium. Book your online on www.austrian.com and save 15% on all applicable fares! To do so, simply enter the following code in the eVoucher/Gutschein field on the Austrian homepage booking engine: LON13

Terms and Conditions:

Booking period: from now until April 6, 2013
Valid for flights to Salzburg and/or Vienna and return as of March 28, 2013 until April 13, 2013 (final date for return flight) on OS flight numbers.

By train

Salzburg main railway station is located in direct proximity to the conference venue (300m) and at a 15 min walk from the city centre. Being close to the German border means that, Salzburg has outstanding Eurocity, Intercity and ICE connections to cities across Europe. You can also catch a local or suburban train to Salzburg from most towns in the region, As a border station to Germany, it has an important role and excellent Euro-City, Intercity and ICE connections to Austria’s neighbouring countries.

By car

The Western motorway from Vienna (A1) and Tauern motorway (A10) from southern Austria as well as the motorway coming from Munich (A8) connect the city of Salzburg and all regions of Salzburg. All venues and hotels in the city and province of Salzburg can be reached by car. Please remember to purchase a toll sticker if you drive to Salzburg by car.

For further information please see: www.salzburg.info/en/arrival_traffic

Language

The official language of the congress is English. No simultaneous interpretation facilities will be provided during the conference.

Hardly any age failed to leave its architectural imprint on Salzburg. Since much of the Old City is a pedestrian zone and relatively small, it is ideal for walking and window shopping – it only takes about 20 minutes to walk from Nonntal (the southern end) to Mülln (the northern end). Those in a hurry can take a taxi whereas those with time to spare can indulge in a Fiaker ride, an oldtime horse and buggy creation, for a leisurely tour of the city. The city’s most famous squares include Residence Square with its splendid fountain, the neighbouring Old Market, University Square, as well as Mozart Square with the memorial of the city’s genius loci.
